PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience building Android and iOS applications using native Kotlin and Flutter. I've delivered products end to end across native and cross-platform environments, from architecture and development to production releases. I also contribute to code reviews, mentor junior developers, and build computer vision and on-device machine learning features.

SKILLS

Languages: Kotlin, Dart, Java, PHP, C++

Mobile & Architecture: Native Android, Flutter, Kotlin Multiplatform (KMP), Jetpack, BLoC, Clean Architecture, MVVM

Backend & ML: Laravel, MySQL, Firebase, REST APIs, Third-party SDK Integration, Google Cloud Vision, Image Processing

Tools & Practices: Git, CI/CD, Play Store & App Store Publishing, Unit Testing, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Jan 2026 - Present

[Envobyte Ltd.](#)

Khulna, Bangladesh

- Lead a cross-functional engineering team, owning architecture decisions, technical direction, and project planning.
- Build AI-powered mobile features using Google Cloud Vision, ML Kit, and on-device image processing.
- Drive code reviews and mentor junior developers to keep code quality consistent across the team.
- Improve app performance and reliability while integrating practical, production-ready AI features.

Senior Software Engineer

Dec 2023 - Dec 2025

[MoveOn Technologies Ltd.](#)

Dhaka, Bangladesh

- Built and successfully launched a cross-border eCommerce app for both iOS and Android using Flutter.
- Structured the application with Clean Architecture and BLoC for maintainable, scalable feature development.
- Set up CI/CD pipelines for automated Play Store and App Store releases, with Sentry crash monitoring.
- Mentored junior developers, led code reviews, and shaped key technical and architectural decisions.

Software Engineer

Mar 2021 - Nov 2023

[Amreen Info Tech Ltd.](#)

Khulna, Bangladesh

- Built an e-learning app in Java with live classes, LMS features, and an integrated online book reader.
- Implemented real-time messaging and push notifications using Firebase and Firebase Realtime Database.
- Optimized rendering and UI responsiveness to deliver smoother scrolling across content-heavy screens.

Junior Software Engineer

Mar 2019 - Dec 2020

[Ali2BD - eCommerce](#)

Dhaka, Bangladesh

- Developed and maintained the Ali2BD online shopping app using Java and XML for Android mobile users.
- Built product browsing, search, and cart features supporting real-time product data and checkout workflows.

PERSONAL PROJECT

PhotoNexAI — AI Photo Editing App | [photonexai.com](#)

- Built and launched an AI photo styling app using Kotlin Multiplatform (KMP), with image generation and processing.
- Created the supporting Laravel website, including a prompt marketplace, and integrated Google Play Billing.

EDUCATION

Daffodil International University – Dhaka, Bangladesh

Jan 2015 - Jan 2019

BSc in Computer Science & Engineering
